MET'S

COLLEGE OF ADVANCED STUDIES

MET'S group of educational institutions is administered by the Mala Educational Trust, which was established in 2001 by a group of visionaries to impart world class quality education to the youth, by creating a dynamic and conducive ambience for realizing such a lofty ideal. The Trust started MET'S COLLEGE OF ADVANCED STUDIES in 2015, with the experiential knowledge of running the MET'S School of Engineering for 13 years. MET'S COLLEGE OF ADVANCED STUDIES is another jewel in the crown of the MET'S Enterprising Team. In starting this ADVANCED STUDIES, our aim is to create well educated and well employed men and women with global outlook, acumen and entrepreneurship.

BACHELOR OF COMMERCE: B.Com

Bachelor of Commerce is an undergraduate degree in commerce and related subjects. It is designed to provide students with a wide range of managerial and entrepreneurial skills for building competence in any area of business. Students are grounded in general business principles through courses in Accounting, Finance, Business Management, Human Resources, Marketing, Economics and Income Tax and GST. The B.Com courses are three year programmes. Department also provides Certificate course in GST along with the subjects specified by the University.

1. Chartered Accountant (CA) or Company Secretary (CS) or ICMA
2. M Com/MBA
3. Lecturer/Professor in Colleges
4. Bank Employment from Clerks to Officers
5. Government Jobs
6. Human Resource Development Management
7. Legal Adviser/Attorney
8. Chief Accountant/Chief Internal Auditor
9. Financial Manager/ Advisor

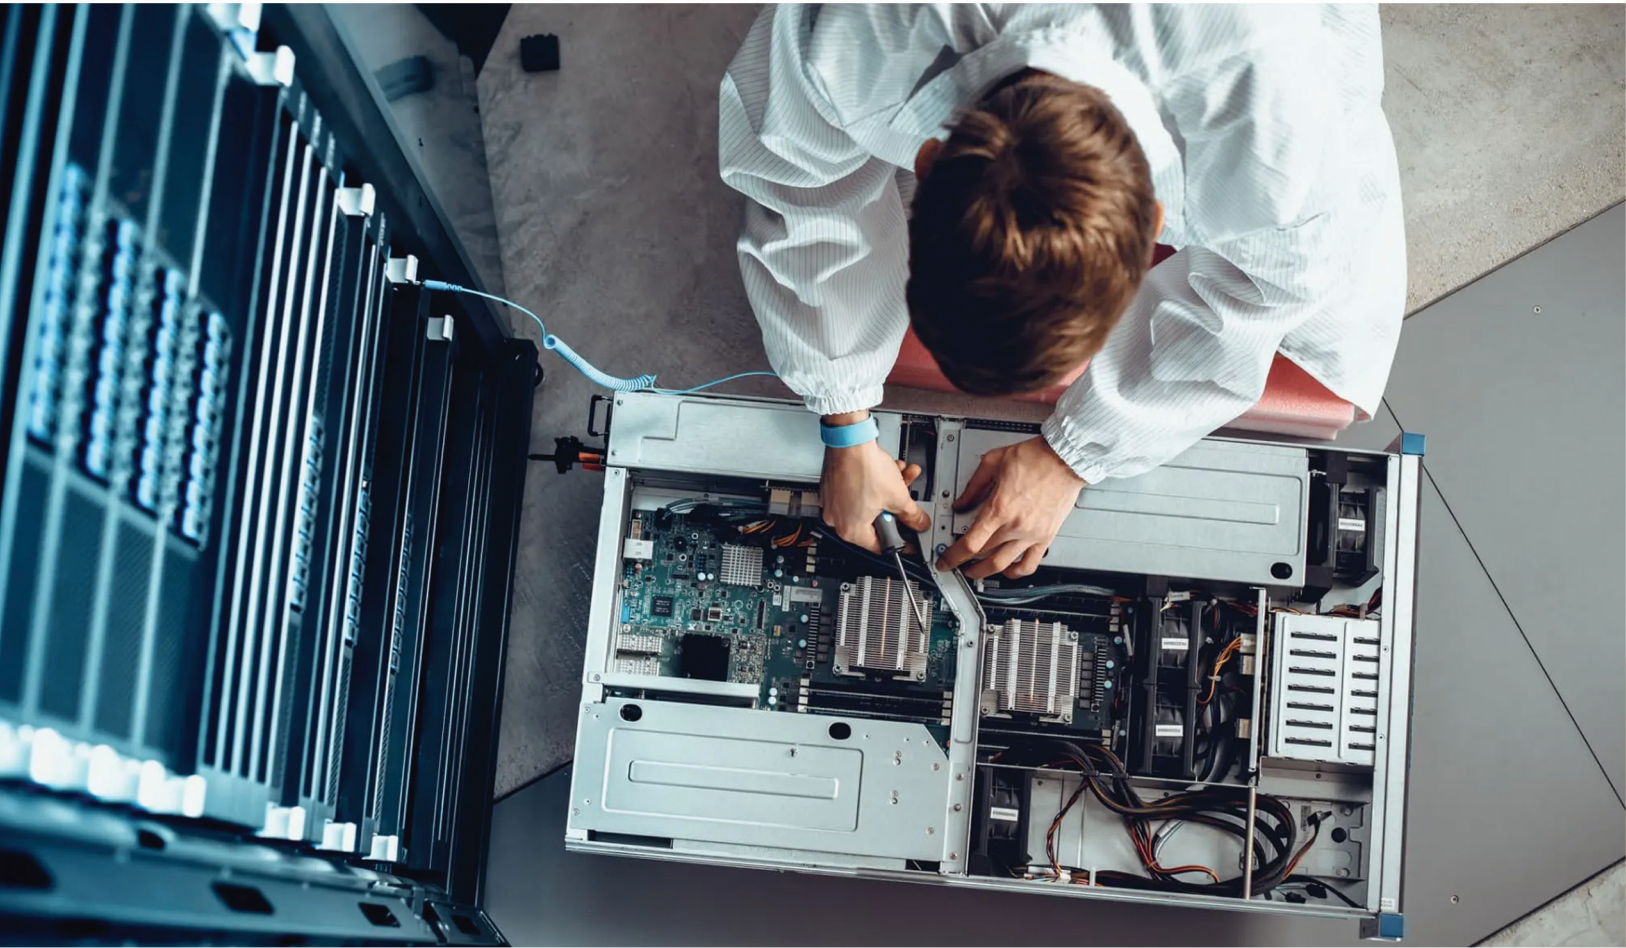

DEPARTMENT OF COMPUTER APPLICATIONS

Department of Computer Applications came in existence since the establishment of college in the year 2015 aims at helping students to harvest the benefits of the Information Technology. These days BCA is one of the most popular courses which students choose after completing their 12th. BCA course is perfect for someone who is interested in computers. A sound understanding of mathematical ideas is needed throughout the course, both for potential applications such as scientific computation, and for reasoning meticulously about the specification and behaviour of programs.

The course includes English, Programming Languages, Computer Networks, Data Base Management Systems and much more. The mission of the department is to persistently strive for achieving excellence in the computing disciplines. Practical skills are also developed and the majority of subjects within the course are linked with practical work which contributes marks towards the final examination.

CAREER OPPERTUNITIES

1. Software Engineer
2. Systems Engineer
3. Hardware Engineer
4. Network Engineer
5. Database Administrator
6. Information Security Analyst
7. User Experience Designer

B Sc. Artificial Intelligence

Department of Computer Applications aims at helping students to harvest the benefits of the Information Technology. These days AI is one of the most popular courses which students choose after completing their 12th. B Sc. AI course is perfect for someone who is interested in computers. A sound understanding of mathematical ideas is needed throughout the course, both for potential applications such as scientific computation, and for reasoning meticulously about the specification and behaviour of programs. The course includes Mathematics, Algorithms, English, Programming Languages, Artificial Intelligence, Machine Learning, Big Data and much more. The mission of the department is to persistently strive for achieving excellence in the computing disciplines. Practical skills are also developed and the majority of subjects within the course are linked with practical work which contributes marks towards the final examination.

The curriculum lasts three years (Six semesters).

CARREER OPPERTUNITIES

India is an IT power. Being so, it is obvious that the course of B.Sc. AI will provide jobs in the IT sector. Companies prefer to hire the B.Sc. AI applicants for their software based needs. If one wishes to become a Software Developer or web-designer then B.Sc. AI is the best course to get an early start for their careers. Job opportunities can be found in both large and small software development organizations as well as hardware companies.

1. **Data Scientist**
2. **Data Analyst**
3. **Data Engineer**
4. **Data Developer**
5. **Software Developer**
6. **Big Data Analyst**
7. **Machine Learning Engineer.**
8. **Robotic Scientist.**
9. **Research Scientist.**
10. **Big Data Architect**

BBA - MARKETING

BBA - MARKETING

BBA stands for Bachelor of Business Administration, an undergraduate degree program focusing on business management and administration. In India, a Bachelor of Business Administration or BBA is one of the best known and most sought-after undergraduate courses for those seeking to advance their careers in management. A BBA degree provides a good head start for candidates who wish to develop managerial skills. The course takes students through the core areas of management including Marketing, Sales, Strategy management, etc., along with the key areas such as finance and economics. BBA courses are very well adapted to train students as per industry requirements. They provide an excellent combination of practical and theoretical knowledge. As BBA graduates are designed to fit into a variety of roles in an organization, they have plenty of job opportunities available in the market. In addition to this, this course is also well suited for students who aspire to be entrepreneurs or manage their family business. A BBA degree is an excellent foundation for an MBA course. The basics for business administration, management knowledge, and practical skills gained by a student in BBA help provide them with an excellent stepping stone for pursuing an MBA.

The degree is designed to give a broad knowledge of the functional aspects of a company and their interconnection, as also providing specialization in a particular area. B.B.A. programs expose students to a variety of “core subjects” and generally allow students to specialize in a specific academic area of management. The curriculum is for three years.

CAREER OPPORTUNITIES

1. Human Resource Development Management
2. MBA
3. Government Jobs
4. Legal Adviser/Attorney
5. Bank PO or Indian Railways
6. Start-Up Entrepreneurship.
7. Hotel Management.
8. UPSC&SSC
9. Jobs in Companies.
10. Jobs in Event management.

Both BBA and B Com offer similar career Opportunities. If students are willing to do an MBA, then BBA might be the better option. But if the students desire to become a CA, CS or CFA, then B Com will be a better choice.
